RESEARCH PAPER

2026 **Analysis and Validation of Access Control Vulnerabilities in MCP Management APIs: A Dify MCP Case Study**
Jun-Yong Lee, Hyeongyu Lee, Nurihan Kim (co-first authors); Jungmin Kang · CISC-W 2026
Analyzed missing role checks in Dify MCP management APIs and compared API responses and stored state between the original and role-protected implementations.

Awards

RECOGNITION

2025 **Encouragement Prize** · Privacy & Security Policy Idea Contest · Korea University

2024 **Excellence Award · KISIA Chairman's Award** · AI Security Essay Contest · KISIA

2024 **Minister of Science and ICT Award · Top Graduate** · KISIA AI Security Program · Top overall evaluation

2024 **Grand Prize (1st) · Minister of Science and ICT Award** · KISIA Hackathon · Malicious-URL detection extension

2024 **Top 20 · Minister of Science and ICT Certificate** · WhiteHat School · Cohort 1 · Top 20 of 320

CTF Finals

COMPETITION RESULTS

- **2026 · DEF CON 34 CTF** · Finalist · Team SSS
- **2025 · WhiteHat Contest** · Finalist · 5th in the qualifier · Team KUality
- **2025 · Black Hat MEA CTF** · Finalist · 41st in the qualifier · Team PPU-AENG Overflow

CTF Challenge Authoring

OPERATIONS & REVIEW

- **2026 · KCTF 2026 (KUality)** · Challenge authoring · Liberation Signal 1–3
- **2026 · CSKWS Joint Seminar CTF** · Event operations and challenge authoring · Ghost Display, Black Cache
- **2026 · HACKTHEON Sejong Student Cybersecurity Festival** · CTF operations and challenge authoring
- **Aug 2026 · Information Security Fundamentals Program** · Introductory instruction and Mini CTF operations
- **Feb 2026 · INC0GNITO FESTIVAL CTF** · Event operations and qualifier/final challenge authoring · Project Incoherence
- **Feb 2026 · 5th Hanyang Hacking Defense Contest, HCTF with HSPACE** · Challenge authoring
- **Aug 2025 · SSD CTF** · Challenge authoring

Projects

SECURITY ENGINEERING

2026–Present **Adversarial Attacks and Incident Traceability for AI Systems** · Participating Researcher · Ongoing

2026–Present **Security Analysis of Remote Device-Management Protocols (TR-069) II** · Participating Researcher · Ongoing

2026–Present **AI-Based Future-Threat Scenario Prediction from Threat-Actor Campaigns and MITRE D3FEND-Based Countermeasure Enhancement** · Participating Researcher · Ongoing

2026 **Tool/MCP Call Gateway for Securing AI IDEs**
Project Semester · Vulnerability Research
Reproduced shell-command execution from untrusted Cursor project Hook settings, prepared a PoC and disclosure, and designed a Verify–Restrict–Log gateway.

Jun–Jul 2025 **HSPACE Penetration-Testing Curriculum**
Content Developer · Knights of the SPACE
Built a mock e-commerce service and tiered attack scenarios for a repeatable beginner lab.

Jun–Aug 2025 **CTF Platform Based on Real Bug-Bounty Cases**
Backend Developer · FinderGap
Built the backend for a platform that turns bug-bounty cases into reproducible CTF challenges.

2024 **Automated WordPress Plugin Vulnerability Analysis**
Korea University AI Cybersecurity Symposium
Co-developed an automated plugin scanner, implemented its SQL injection module, and presented the work at a departmental symposium.

2024 **AI-Powered Malicious URL Classifier**
Frontend · Data Preprocessing · KISIA AI Security Network
Cleaned phishing-URL data, supported model training, and built a malicious-URL detection extension frontend.

Vulnerability Disclosure

ZDI / CVE

2026 **ZDI-CAN-30890 · Anysphere · Pending public disclosure** · Co-discovered with Nurihan Kim (HanTul) · ZDI-listed CVSS 7.8

2024 **CVE-2024-11950 · XnSoft XnView Classic RWZ Integer Underflow**
Independent Vulnerability Research · ZDI-24-1640 · High Severity
Discovered and disclosed an RWZ parser integer underflow and memory corruption. ZDI published the issue as CVE-2024-11950 with remote-code-execution impact.

Other

ADDITIONAL EXPERIENCE

Mar–Aug 2025 **Teaching Assistant · KITRI WhiteHat School Cohort 3** · Labs, presentations, and feedback

2024–Present **KnockOn Q&A Mentor** · Web security and vulnerability-analysis practice

2024 **Information Processing Craftsman** · National Technical Qualification

Languages · Korean (native) · English (reading/writing) · Chinese (HSK 4, HSKK Elementary) · Languages
